PUBLIC POLICY SCHOOL

Public Policy School provides **advocacy training** to student interns/volunteers on **key issues important to community college students.** Students then advocate on these issues directly with **legislators and decision-makers** at the local, state, and national levels.

Currently Public Policy School is prepping for our Advocacy and Policy Conference & Legislative Visits in Sacramento, and we are engaging with our school/community members to better **identify what items that we plan to take to legislators that align students' values and needs**. We are here to discuss some issues you think are important that pertain to community colleges and your experiences as a student.

COMMUNITY ENGAGEMENT

WHAT ISSUES INVOLVING COMMUNITY COLLEGE STUDENTS DO YOU CARE ABOUT, AND WHY?

Examples: Student housing, environment & sustainability, immigration/migration access/rights, shared governance/student voice, mental health, disability support/accessibility, higher education affordability
