ICC Elections 2024-2025

ICC Chair of Finance Candidates (4/17)

Listed in Alphabetical Order (first name)

Amelia Oo

I decided to join ICC because I'm very much interested in being a part of the school community and contributing towards a positive campus environment. This position will not only open up my opportunity to collaborate with peers from diverse backgrounds, but will also help me develop my leadership and time management skills. It's also interesting to assist and work with clubs that are either ongoing, new, or on-trial. By being the Chair of Finance, I hope to maximize budgets within ICC and monitor budget flows to the clubs in need with reasonable decision-making. Although pursuing a computer science major for now, I studied business and accounting in high school, where I believe that my background equips me with the necessary skills and experiences to handle financial matters effectively. Furthermore, I am enthusiastic about financial planning such as maximizing the budget, allocating resources efficiently, and ensuring that funds are used in ways that benefit ICC and all clubs on campus. By serving as the Chair of Finance, I also aim to organize the budgets in a way where we are comfortable in creating more meaningful events and memorable experiences for all students on campus.

Brandon Bong

I am interested in being involved in the ICC as the Chair of Finance. I believe this role will serve as a valuable learning opportunity for me in a multitude of ways. I would love to improve my multi-tasking skills, accumulate work experience, and help serve the student body. While I may not have extensive financial knowledge, I truly hope you will give me a chance. I am eager to learn and strive, and I will sincerely do the best in my power to complete the tasks given to me.

I think that I can contribute a lot, despite my lack of experience. My military background has helped shape my character. I served in the Singapore Army for two years as a medic. In that time, I faced extreme physical and mental challenges, such as marching 24 kilometers while carrying 19 kilograms on the route before my graduation, just as an example. My unique experiences, coupled with a "can-do" attitude to tackle any challenges, will certainly equip me to do well in this position. I hope that you agree with my self-assessment and could use someone with my unique background and experiences. Thank you for your consideration.
