PGA for full-time faculty/classified professionals and pay for part-time faculty available

This six-part learning series will focus on raising awareness around prioritized student groups including Latinx, Indigenous, Black, Pacific Islander, Foster Youth, and LGBTQ+ through data and outcomes for these student groups. Informed by successes from De Anza's Learning Communities, this training will focus on high-impact practices that transform teaching and learning and reduce equity gaps for these student groups. Student perspectives will be centered in each session. This series is an intentional effort to build a Culture of Equity at De Anza College and to strategically work towards the goals of the Equity Plan Re-Imagined.
