

De Anza College
Math 42: Precalculus II
Summer 2017, Section 03, CRN 10599

Course and Contact Information

Instructor:	Andrew Jianyu YU
Office Location:	E Squad, Room E37
Email:	andrewjianyu.yu26@gmail.com yujian@fhda.edu
Office Hours:	Monday, Tuesday, Wednesday, Thursday 12:15 P.M. to 12:45 P.M.
Class Days/Time:	Monday to Thursday: 10:00 AM to 12:15PM
Classroom:	Squad G, Room 7
Prerequisites: Advisory:	Prerequisite: MATH 41 (with a grade of C or better); or a satisfactory score on the College Level Math Placement Test within the last calendar year. Advisory: EWRT 211 and READ 211 (or LART 211), or ESL 272 and 273.

Required Materials:

Larson, "Precalculus with Limits", **3rd edition**. Boston: Cengage, 2014
 ISBN-10: 1133947204; ISBN-13: 978-1133947202

IMPORTANT NOTE: Do not purchase the second edition. The exercise problems do not match.

Technical Requirement:

(#1) Your email account: please check your email regularly. It is recommended to connect your email with your smart phone. I will try to email the plan for the upcoming week during weekend. You are encouraged to ask me any homework questions through email.

Course Description:

It covers the theory of trigonometric functions and their applications.

Student Learning Outcome Statements (SLO)

Upon completion of this course, students will be able to formulate, construct, and evaluate trigonometric models to analyze periodic phenomena, identities, and geometric applications.

Attendance:

Attendance to all class sessions is required. After 2 days of absences your grade may be lowered or you may be dropped from the class; however, it is your responsibility to officially drop the course should you decide to do so. You need to sign your name on a sign-in sheet during every class. Please understand that you must attend every class to avoid falling behind. If you did not attend a class meeting, then you are responsible for learning all the materials being covered in class by yourself. Most importantly, if you get caught for signing the attendance sheet for your classmates, then you and your classmates will be marked as absent on that day.

Office Hours

Think of the office hours as free tutoring for homework problems and to catch up with class material. It is also an excellent opportunity to get to know your fellow classmates and your instructor. If you come to the office hours to ask questions on the homework problems, please come prepared. I expect that you have thoroughly read the problem and at least attempted to solve it yourself. Please feel free to ask questions any time before or after class, as they may be of interest to other students.

Homework: 50 points each, 20% of your semester grade.

Please submit your homework in the beginning of class. Your lowest homework score will be dropped. Please circle your final answers. Late homework is not accepted. The score of late homework is zero. Only the selected problems will be graded. Please show all of your work; otherwise your homework will not be graded. You are encouraged to discuss homework assignments with other students, but you must write up your solutions independently. Copying answers to homework problems from other people or other sources (including the internet) is not acceptable. You are expected to turn in completed solutions - show your work on all steps. Ask questions in class and during the office hours. Do not wait until the day before an assignment is due to start working on it. PLEASE STAPLE ALL SHEETS TOGETHER. If you write your homework in your notebook, please remove the left margin before you submit your homework. Points will be deducted if your homework does not satisfy two conditions mentioned above.

Quizzes: 30% of your semester grade.

A weekly quiz will be given at the due date of the weekly homework. I will give the quiz during the last 10 minutes of class. Quiz problems are very similar to homework problems. All the quizzes are closed book and closed notes. You are allowed to use a calculator on the quiz. Please circle your final answers. **No make-ups quizzes will be given. Your lowest quiz score will be dropped.**

Midterm: 30% of your semester grade. (There are 2 midterms in this semester)

All exams are closed book and closed notes. You are not allowed to use any electronic devices except for a non-graphing calculator. If necessary, a formula sheet will be provided. Midterm date will be announced at least one week in advance. Practice midterm will be given. There will be no make-ups for missed exams after the exam has been given. However, prior to an exam, rescheduling arrangements may be considered for illness and other special circumstances. **You are not allowed to share calculators during midterm.**

Final Exam: 20% of your semester grade. Date: Thursday, August 10

Final exam is cumulative. It covers all the materials being covered in this semester. This is a closed book and closed notes exam. You are not allowed to use any electronic devices except for a calculator. If necessary, a formula sheet will be provided. There will be no make-ups for missed exams after the exam has been given. However, prior to an exam, rescheduling arrangements may be considered for illness and other special circumstances.

You are not allowed to share calculators during final.

Grading Rubrics:

Your semester grade will be assigned in the following standard:

A: 100% to 92%	A-: 91% to 90%	
B+: 89% to 86%	B: 85% to 82%	B-: 81% to 80%
C+: 79% to 74%	C: 73% to 70%	
D: 69% to 60%	F: below 60%	

Academic Integrity

- Please be honest, do not copy other people's work.
- If you cheated and get caught during the quiz and exam, I will give you a zero on that assignment. Here are examples of cheating.
- Looking or copying other classmates' answers during the test.
- Passing a slip of paper to your classmate.
- Using your cellphones to browse on Internet or reading the pictures of your notes, homework, or any other resources.
- Please leave your cellphone on my table if you want to go to the restroom.

Classroom Discipline:

- Please be on time.
- If you plan to leave early, please sit close to the door.
- Do not use your cellphone during class.
- Do not use your computer during class unless you are being asked to do computations in your computer.
- Please respect your classmates at all times.
- No talking except to ask questions of the instructor or answer questions posed by the instructor. Even one side conversation can carry throughout the room and distract other students. Students who are disruptive will be removed from the course.

Available Support Services:

There are two tutorial centers on the De Anza campus. S-43 provides tutoring for Math and Science, else. Drop-in tutoring is always available. Individual tutoring is also available.

Academic Adjustments for Students with Disabilities:

In coordination with the Disability Support Services, reasonable accommodation will be provided for eligible students with disabilities. For more assistance, please contact the DSS Student Community Services Building, Room 141 or call 408-864-8753.

Class Conduct Policy:

Students are responsible for adhering to the Code of Student Conduct outlined in the De Anza College Catalog and the De Anza Student Handbook, available online.

Students who engage in disruptive behavior—conduct that interferes with the instructional, administrative, or service functions of the course – can be subject to disciplinary action, including suspension and/or expulsion from the course and/or college. Specifically, cell phone interruptions, the use of iPods, habitual profanity or vulgarity, and continued willful disobedience will result in disciplinary action.

Expected Preparation for Class:

Students must come to class with the required assigned texts/textbook(s) each class period, and they must come prepared with all work completed, as assigned. Students should plan to spend a minimum of two hours outside of class for each hour spent in class to learn and make satisfactory progress in the class.

Attendance, Drops, Withdrawal:

Regular attendance is important for success in math class as each day's work builds upon what came before. You are expected to attend all classes, arrive on time & stay for the entire class. Late arrival/early departures are disruptive to the class and to your classmate's learning. The instructor reserves the right to drop students who miss more than 2 classes during the quarter or who miss any classes in the first two weeks. However the instructor may or may not perform such a drop/withdrawal.

Educational Access:

Please see instructor during office hours to discuss your situation confidentially if you have accommodations; you should see the instructor during the first week of class or as soon as you receive approval from the appropriate support service.

For information about eligibility, support services or accommodations due to physical or learning disability see:

- Disability Support Service (DSS): www.deanza.edu/dss Location: SCS-141 (408) 864-8753; TTY (408) 864-8748
- Educational Diagnostic Center (EDC): www.deanza.edu/edc Location: LCW 110; (408) 864-8839
- Special Education Division;: www.deanza.edu/specialed (408)-864-8407

Class Cancellation, Emergency:

If class is canceled for any reason, or if an emergency causes campus to be closed, assume that any quiz, exam or due date scheduled on that date will be rescheduled to our next class meeting. If there are other changes, I will announce them in class after classes resume. Check the website and email; if necessary and if possible, I may post a message.

Important Dates to Remember (De Anza College Academic Calendar):

Monday, July 3	First day of class
Tuesday, July 4	Independence Day, NO CLASS

Course Topics:**Chapter 4: Trigonometry**

- Section 4.1: Radian and Degree Measure
- Section 4.2: Trigonometric Functions: The Unit Circle
- Section 4.3: Right Triangle Trigonometry
- Section 4.4: Trigonometric Functions of Any Angle
- Section 4.5: Graphs of Sine and Cosine Functions
- Section 4.6: Graphs of Other Trigonometric Functions
- Section 4.7: Inverse Trigonometric Functions
- Section 4.8: Applications and Models

Chapter 5: Analytic Trigonometry

- Section 5.1: Using Fundamental Identities
- Section 5.2: Verifying Trigonometric Identities
- Section 5.3: Solving Trigonometric Equations
- Section 5.4: Sum and Difference Formulas
- Section 5.5: Multiple-Angle and Product-to-Sum Formulas

Chapter 6: Additional Topics in Trigonometry

- Section 6.1: Law of Sines
- Section 6.2: Law of Cosines
- Section 6.3: Vectors in the Plane
- Section 6.4: Vectors and Dot Products
- Section 6.5: Trigonometric Form of a Complex Number

Chapter 10: Topics in Analytic Geometry

- Section 10.7: Polar Coordinates
- Section 10.8: Graphs of Polar Equations

Tentative Calendar:

<p style="text-align: center;">Week #1</p> <p>Monday July 3: Syllabus 4.1 Tuesday July 4: NO CLASS Wednesday July 5: 4.2, 4.3 Thursday July 6: 4.3, 4.4</p>	<p style="text-align: center;">Week #4</p> <p>Monday July 24: 5.5, 6.1 Tuesday July 25: 6.1, 6.2 Wednesday July 26: 6.2 Thursday July 27: Midterm #2 Review</p>
<p style="text-align: center;">Week #2</p> <p>Monday July 10: 4.5, 4.6 Tuesday July 11: 4.7 Wednesday July 12: 4.8 Thursday July 13: Midterm #1 Review</p>	<p style="text-align: center;">Week #5</p> <p>Monday July 31: Midterm #2 Tuesday August 1: 6.3 Wednesday August 2: 6.4 Thursday August 3: 6.5</p>
<p style="text-align: center;">Week #3</p> <p>Monday July 17: Midterm #1 Tuesday July 18: 5.1, 5.2 Wednesday July 19: 5.2, 5.3 Thursday July 20: 5.3, 5.4</p>	<p style="text-align: center;">Week #6</p> <p>Monday August 7: 10.7 Tuesday August 8: 10.8 Wednesday August 9: Final Exam Review Thursday August 10: Final Exam</p>

The professor reserves the right to make changes to the syllabus, including project due dates and test dates (excluding the officially scheduled final examination), when unforeseen circumstances occur. These changes will be announced as early as possible so that students can adjust their schedules.
